

NELSON, FODJO KAMDOUM

Data Science & Software Engineering | EdTech Innovator | Tech Community Leader

✉ fodjonelson22@gmail.com

📞 +237 652 278 011

📍 Pamplemousses, Mauritius

Solution-oriented software engineering and data science student with strong leadership and execution skills. Known for transforming complex problems into scalable solutions across education, technology, and community development. Recognized for high ownership, rapid learning, and delivering measurable results.

Education

African Leadership College of Higher Education ----- **Pamplemousses, Mauritius**
BSc Software Engineering (ML & AI Track) ----- **Expected Graduation: 2028**

MIT Emerging Talent ----- **Remote**
Certificate in Computer and Data Science ----- **Nov 2024 - Dec 2025**

- Completed Foundations Track: *Intro to CS & Python* and *Computational Thinking & Data Science*.
- Built and deployed an interactive research project: [MIT ET Foundations Project](#).

WorldQuant University ----- **Remote**
Applied Data Science Fellow ----- **Dec 2024 - Apr 2025**

- Using Python (pandas, scikit-learn, statsmodels), SQL, MongoDB, and EDA to develop and evaluate models in housing prices, air quality, earthquake damage, and bankruptcy prediction.

GBHS ETOUG-EBE ----- **Yaoundé, Cameroon**
Science High School Diploma (CGPA: 4.0/4.0) ----- **Sept 2017 – July 2023**

Experience

Front-End Web Developer — PersSelf Learning, Remote ----- **Mar 2022 - Present**

- Built a responsive Fast-Food Restaurant website using HTML, CSS, and JavaScript. [View Project](#)

Tech Innovation Center Foundation ----- **Yaoundé, Cameroon**
TIC Summit Centre Regional Coordinator ----- **Sep 2024 – Oct 2025**

- Led tech education across 17 schools, mentoring 200+ students and organizing summits for 1000+ participants—awarded Best Regional Coordinator.

Open Dreams NGO ----- **Yaoundé, Cameroon**
Administrative Assistant — Physical & Remote ----- **July 2025 – Present**

- Improved system reliability and student experience by 35% by managing automation, databases, cybersecurity, and documentation while streamlining cross-team workflows for over 200+ students.
- Automated 200+ certificates and acceptance letters using Python, cutting processing time by 80% across programs.

Computer Science and Mathematics Tutor ----- **Yaoundé, Cameroon, Remote**
PDV Leadex Corporation, Summit of Excellence, and NELCO Explains CSC ----- **Aug 2023 - Present**

- Managed [NELCO Explains CSC](#) YouTube channel, tutoring 600+ students solving GCE Computer Science questions, teaching C and SQL improving students grade by 50%+.

Skills

- Technical:** Python, C, SQL, Pandas, scikit-learn, Git, Jupyter
- Leadership:** Communication, Mentoring, Curriculum development

Certifications

- MITx 6.00.1x:** Introduction to Computer Science and Programming Using Python
- MITx 6.00.2x:** Introduction to Computational Thinking and Data Science
